Hi Everyone,

During my call with Dan R. today, he mentioned Enid had been working on some 24© updates. Dian was able to track down the last document she drafted. I'm attaching it here for reference.

This could be a good starting point.

Best,

Hi Maya:

I hear Dan R. is setting up a meeting to discuss this topic tomorrow, so we can discuss details then. HB will also try to look at the Word doc version that Rhina circulated for edits today.

Hi Meg,

It sounds like this webpage needs to be updated or archived. What are your thoughts? We could delete the box that says 'important information on requests under FIFRA 24c,' parts of the webpage, or the entire webpage. If we choose to delete certain parts of the webpage, it's best to copy and past the webpage into a word document and use track changes to delete text that is now obsolete. I don't quite understand what information is still relevant with the new registration decision, so your input would be helpful.
